

## CleanAir Solutions, Inc.

The Cleanroom Specialists

### PARTIAL LIST OF COMPLETED PROJECTS

**Company:** Goddard Space Flight Center  
**Address:** Bldg 29, Room 160, Greenbelt, MD 20771  
**Contact:** William Bond  
**Phone Number:** 301-704-9117  
**Class:** 10,000 Horizontal Flow Cleanroom

**Description:**

- ▲ Currently under contract to design-build a Class 10,000 horizontal flow cleanroom at 20' AFF.
- ▲ Include designs, seismic calculations, engineering, and all related facility integration.
- ▲ Completion date June 2011

NASA GODDARD MMS CLEAN ROOM

**Company:** KMG, Inc.  
**Address:** 2340 Bert Drive, Hollister, CA 95023  
**Contact:** Mike Marinak  
**Phone Number:** 925-458-7376  
**Class:** 100 Drum Filling Cleanroom

**Description:**

- ▲ Recently completed design-build Class 100 drum filling cleanroom with integrated raised floor and conveyor system. Floor supported structure; include designs, seismic calculations, engineering, and all related facility integration.
- ▲ Completed September 2010

**Company:** BD Medical, Inc.  
**Address:** 9450 S. State St., Sandy, UT 84070  
**Contact:** Richard Marshall  
**Phone Number:** (801) 972-1146  
**Class:** 10,000 Walkable Cleanroom Ceiling

**Description:**

- ▲ Recently completed design-build Class 10,000 walkable cleanroom ceiling system, approximately 20,000 square feet. Roof supported structure; include designs, seismic calculations, engineering, and all related facility integration.
- ▲ Completed February 2010

### PARTIAL LIST OF COMPLETED PROJECTS

**Company:** Cognate Bioservices, Inc.

**Address:** 709 E. Evelyn Avenue

**Contact:** Kathy Turner

**Phone Number:** (408) 616-1028

**Class:** 100 and 1,000 Modular Hardwall

**Description:**

- ▲ Recently contracted design-build cleanroom approximately 1,800 square feet. Freestanding structure, include designs, seismic calculations, engineering and all related facility integration
- ▲ Completed May 2009

**Company:** DriveSavers, Inc.

**Date:** Completed April 2008

**Address:** 400 Bel Marin Keys Blvd.

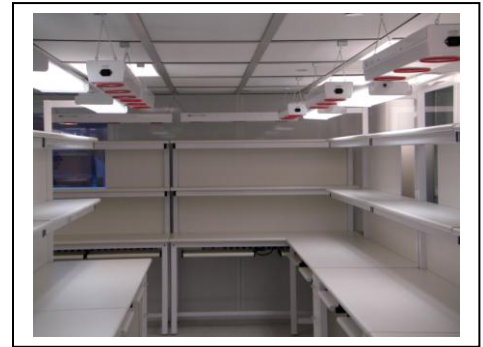

**Contact:** Michele Rivers

**Phone Number:** 415-382-8000 x191

**Class:** Class 100, 1,000 & 10,000

**Description:**

- ▲ Approx 1,200 Sq. Ft. of Design/build Class 100/1,000/10,000 Cleanroom (Mixed Use Room).
- ▲ State of the Art ESD technology
- ▲ 3<sup>rd</sup> Floor installation
- ▲ Included facility integration of all trades
- ▲ Included all structural, design engineering & installation

**Company:** Merit Medical Systems, Inc.

**Date:** Completed August, 2007

**Address:** 1600 West Merit Parkway

**Contact:** Stuart Knight **Phone Number:** 801-253-1600

**Class:** Class 10,000

**Description:**

- ▲ Approx. 9,500 Sq. Ft. of Design/build Class 10,000 Cleanroom with Walkable ceiling system using our diamond pattern aluminum panels and heavy duty gasketed T-bar suspended 2-tiers from building structure around existing facility piping, ductwork and equipment.
- ▲ Included all structural, design engineering & installation.

The Cleanroom Specialists

### PARTIAL LIST OF COMPLETED PROJECTS

**Company:** Oxford Instruments

**Date:** Completed September 2006

**Address:** 275 Technology Circle, Scotts Valley, CA 95066

**Contact:** Brian Burke **Phone Number:** 831-439-6012

**Contact:** Steve Salyer **Phone Number:** 831-438-5742

**Class:** Class 1000

**Description:**

- ▲ Design/build Class 1000 Modular Hardwall cleanroom system with single pass, enclosed plenum design and pre-filtered return air above room walls.
- ▲ Included all facility integration for room start up.

**Company:** JDS Uniphase, Inc.

**Date:** Project span 1999 to 2003

**Address:** 2789 Northpoint Parkway, Santa Rosa, CA 95407

**Contact:** Jack Andring

**Phone Number:** (707) 525-7737

**Class:** Class 10,000

**Description:**

- ▲ Approx. 10,000 Sq.Ft. of Class 10,000 cleanroom including overhead catwalks suspended at roofline
- ▲ Technical specifications, design and engineering for a Two-Phase Class 10,000 cleanroom project including all mechanical, electrical, sprinklers, process piping, architectural and flooring.

**Description:**

- ▲ Design-build project for approx. 10,000 Sq.Ft. of Class 10,000 for the Building "A" and Building 5 cleanrooms
- ▲ Building "F" cleanroom conversion project
- ▲ Class 100 Softwall Cleanroom tent in Bldg. C.
- ▲ Total value of all projects listed above \$2,500,000.
