SlimLine™ Bucket

A narrow polypropylene bucket for use with the SlimLine or SlimT Cleanroom Cart system. Each bucket measures 19 1/4" x 9 1/2" x 9 1/2" and has a 6 gallon capacity. Can be autoclaved. Available in Blue, Red or Yellow

Curtain Cleaner™

A Spring loaded mop assembly for cleaning cleanroom curtains - both sides at the same time. The stainless steel frame clamps the curtain at its uppermost edge and then slides down to apply, or squeegee, the cleaning agent at both sides of the curtain. Holds CCSC slip covers. Autoclavable

CGT™ Conductive Grid Tape

A special polypropylene tape layered with a non-sparking, anti-static surface on the inner and outer layers of the tape. Conductive grids are embedded between the two anti-static layers. Provides an effective static shield as well as preventing static build-up.

NovaHol™ Cleanroom Cleaner

This ready-to-use formulation offers the same fine filtration and low ionic levels of NovaClean with the addition of Isopropyl Alcohol to speed dry time. NovaHol is available in an easy to use spray bottle and can be applied directly to the surface being cleaned. Gallon refill bottles are also available. With its extremely high evaporation rate, NovaHol is ideal for cleaning glass, acrylic, vinyl curtains and stainless steel surfaces.

SlimT Wringer

Designed to wring the SlimLine and T-Mop series as well as other flat pad mops. The Slim-T wringers simple design allows the operator to wring out excess liquid leaving the mop damp enough to effectively saturate the surface being cleaned. Crafted from electropolished stainless steel for durability and long life. Autoclavable
