

CleanAir Solutions, Inc.
The Cleanroom Specialists

CART PASS-THRU:

Designed as an inexpensive way to minimize contamination in controlled environments, our standard CART pass-thru features interlocking doors which help maintain the cleanroom seal.

Our Store Front glass doors are rugged and extend the life of virtually any type of pass-thru cabinet. This is a must in a clean production environment!

These units are available in various construction materials, some of which are chemically resistant. Our cart pass-thru cabinets are designed to offer contamination-free transfer of materials in and out of the cleanroom.

Our Cart Pass-through cabinets eliminate unnecessary personnel entry/exit. We offer a full range of sizes to meet any application.
