

## Store Front Doors

Full glass or half glass architectural aluminum doors are available with a variety of hardware options, including pivot hinges, surface mounted closers, concealed closers, panic hardware, and locksets.

## Hollow Metal Doors

Glazed or flush hollow metal doors integrate into the aluminum door frames utilizing butt hinges at the jamb connection. This door can be modified to work with our continuous piano hinge.

## Cleanroom Doors

Half glass architectural aluminum doors are available with a variety of hardware options, including pivot hinges, surface mounted closers, concealed closers, panic hardware, and locksets. Doors come standard with a continuous piano hinge, door closer, flush bolt receiver, dust cover, lockset with pull handles, and astragal. All horizontal glazing clips are beveled to eliminate any difficulty in wiping down corners to reduce particle accumulations.
