The Cleanroom Specialists

CLEANROOM CEILING SYSTEMS:

CleanAir Solutions, Inc. proudly presents the Tech-Seal gasket ceiling system designed for walkable load-bearing applications. The Tech-Seal Grid's heavy duty aluminum is manufactured to meet the exacting standards of the cleanroom industry. Strong Load Bearing Capacity Connectors are designed to accommodate standard 2' x 4' openings and other unusual configurations.

- ▶ Slotted T-Bar is ideal for hanging lights, piping, equipment and electrical components at ceiling level without obstructing the operation of a cleanroom.
- ▶ Connector and suspension hardware is interchangeable with Gasket and Gel Seal Style T-Bar hardware.
- ▶ Sprinkler Penetration Sleeves, Ionization Emitters and seismic sway control can be incorporated into the system.
- ▶ For applications in seismic zones, the all-thread rod serves as a compression strut and splay wires can be attached to eye bolts secured to the Intersection Connectors.

For your next project "TECH IT OUT" with Tech-Seal. Call us for a no-obligation quote on your Once assembled the grid forms a continuous gasketed ledge to receive any ceiling components required for an ultra-clean manufacturing environment.
